

ALL INDIA BANK RETIREES' FEDERATION

6th Triennial Conference

25th - 27th February, 2023-Bengaluru

Pension updation is our right

BENGALURU BECKONS YOU TO THE 6TH CONFERENCE OF AIBRF

Depthless delight, deep honour and measureless pleasure engulfs all of us, here, at our Karnataka State Committee of AIBRF, when we start preparations for holding and hosting the 6th National Conference of our parent Organisation, the AIBRF, for three days, at Bengaluru, on 25th, 26th and 27th February, 2023.

While getting fully prepared to carry out this onerous responsibility, first of all, we extend a very warm wellcome to all Delegates, observers, our leaders and distinguished guests, to this city of Bangalore, which will be pleasant and cool around that time.

More than 2500 Bank Retirees are expected to participate in the Inaugural Session of the Conference on 25th February, 2023. It will be the largest gathering of Bank Retirees from India's Banking Industry, from all cadres, Managers to Messengers, from Chairman to Gardner, who, while in service have given their best in the building process of this gigantic industry, having more than 1,30,000 branches, with a man power of nearly 8 lakhs.

We are aware of the significance of this Conference. Crucial issues like up-dation of pension, Medical Insurance, Discussion with Retirees' Organisations about Retirees' issues, Pension to Resignees, etc will all be discussed and debated by the delegates and appropriate decisions will be taken.

From the State Committee of Karnataka, all arrangements will be made to ensure that this gigantic conference is held with elaborate planning and meticulous arrangements. We are working out to make the stay of our delegates comfortable, their food neat and clean and the deliberations in a detailed manner.

Bengaluru, once a Paradise of Pensioners, is no more so. Decades ago, in 1950s and 60s, this city became a vast industrial base, with gigantic government owned "modern temples" coming up. Big public sector undertakings like HAL, NAL, HMT, ITI, BEL, BEML, BHEL, NGEF, MSDL etc made this city an humming industrial town. This made Bengaluru a centre of working class. They migrated in thousands to this city and made it busy. Since last two decades, the city changed its contours and colours. Information Technology invaded this industrial city and filled all the spaces. It also grew into a real estate centre. Another huge inward migration of mass of people thickly populated the city- I T experts on one hand and construction workers on the other. Millions were earned and spent. Countless infrastructure complexes sprang up. Dotting residential complexes rose to skies, numerous malls made our city congested and fleets of new vehicles entering the roads every day added to the pollution. Once famous for the biggest legislative building, the Vidhana Soudha, vast stretches of greenery like LalBag and Cubbon Park, Bengaluru, now has become Silicon Valley of India with rapidly growing Information Technology facilities. The City now houses hundreds of National Organisations, Research Institutes, Higher Education Centres, Data Hubs, Etc, Etc. Into this City of Changes and Colours, we extend to you a warm welcome, with cold breeze wafting around.
